## **R12-1-305. General license --Source Material**

- C.** Depleted uranium in industrial products and devices.
1. This subsection establishes a general license to receive, acquire, possess, use or transfer, depleted uranium contained in industrial products or devices for the purpose of providing a concentrated mass in a small volume of the product or device.
  2. The general license in subsection (C)(1) applies only to industrial products or devices which have been manufactured under a specific license governed by R12-1-311(M), or a specific license issued by the U.S. Nuclear Regulatory Commission or an Agreement State authorizing manufacture of the products or devices for distribution to persons generally licensed by the U.S. Nuclear Regulatory Commission or an Agreement State.
  3. Depleted uranium
    - a. Persons who receive, acquire, possess, or use depleted uranium under the general license established by subsection (C)(1) shall file ARRA 23 "Registration Certificate -- Use of Depleted Uranium Under General License", with the Agency. The form, requesting the information in Exhibit E, shall be submitted within 30 days after the first receipt or acquisition of the depleted uranium. The general licensee shall furnish on ARRA 23 the following information:
      - i. Name, telephone number, and address of the general licensee;
      - ii. Location of use;
      - iii. A statement that the general licensee has developed and will maintain procedures designed to establish physical control over the depleted uranium described in subsection (C)(1) and to prevent transfer of the depleted uranium in any form, including metal scrap, to persons not authorized to receive the depleted uranium; and
      - iv. Name or title (or both), address, and telephone number of the individual duly authorized to act for and on behalf of the registrant in supervising the procedures identified in subsection (C)(3)(a)(ii) .
    - b. The general licensee possessing or using depleted uranium under the general license established by subsection (C)(1) shall report in writing to the Agency any changes in information originally furnished on ARRA 23. The report shall be submitted within 30 days after the effective date of the described change.
  4. A person who receives, acquires, possesses, or uses depleted uranium under the general license established by subsection (C)(1):
    - a. Shall not introduce the depleted uranium, in any form, into a chemical, physical, or metallurgical treatment or process, except a treatment or process for repair or restoration of any plating or other covering of the depleted uranium;
    - b. Shall not abandon the depleted uranium;
    - c. Shall transfer the depleted uranium as prescribed in R12-1-318. If the transferee receives the depleted uranium under the general license established by subsection (C)(1) , the transferor shall furnish the transferee with a copy of this rule and a copy of the registration certificate. If the transferee receives the depleted uranium under a general license governed by a regulation of contained in the U.S. Nuclear Regulatory Commission's or Agreement State that is equivalent to subsection (C)(1), the transferor shall furnish the transferee a copy of this rule and a copy of the registration certificate, accompanied by a letter explaining that use of the product or device is regulated by the U.S. Nuclear Regulatory Commission or Agreement State under requirements substantially similar to those in this rule;
    - d. Within 30 days of any transfer, shall report in writing to the Agency the name and address of the person receiving the depleted uranium; and
    - e. Shall not export the depleted uranium except under a license issued by the U.S. Nuclear Regulatory Commission in 10 CFR 110.
  5. Any person receiving, acquiring, possessing, using, or transferring depleted uranium according to the general license established by subsection (C)(1) is exempt from the requirements of 12 A.A.C. 1, Articles 4 and 10 with respect to the depleted uranium covered by that general license.
